

# HORIZONTAL SPIN TRIMMER

The **HSPT4000 Horizontal Spin Trimmer** manufactured by Compact Mould, combines reliability and ease of operation to give you an exceptional piece of auxiliary equipment that is easily integrated into existing production line or as a stand alone unit.

As with all Compact Mould's Blow Molding Machinery and auxiliary equipment, the HSPT4000 Horizontal Spin Trimmer has achieved reliability through a simple but sturdy design and quality workmanship for neck to neck applications.

Standard features include:

- Variable Speed
- 1/4 H.P. D.C. Driver Motor
- Variable Temperature for Hot Knife
- Nickel Plated Components
- Clear Lexan Safety Covers
- Switched A.C. Power (to accommodate an optional conveyor)

The HSPT4000 Horizontal Spin Trimmer can handle various plastic including HDPE, PVC, PETG and PET. It is capable of trimming necks up to 3 inches in diameter, on round or oval containers.

With quick adjustment for accommodating various wide mouth container sizes and easy height adjustment contributes to the simplicity and ease of operation of the unit.

Other blow-dome designs are also available.

Due to a company policy of continuous improvement, Compact Mould reserves the right to alter technical specifications without prior notice. 6/16/2009
